

IHS Standards Subscriptions

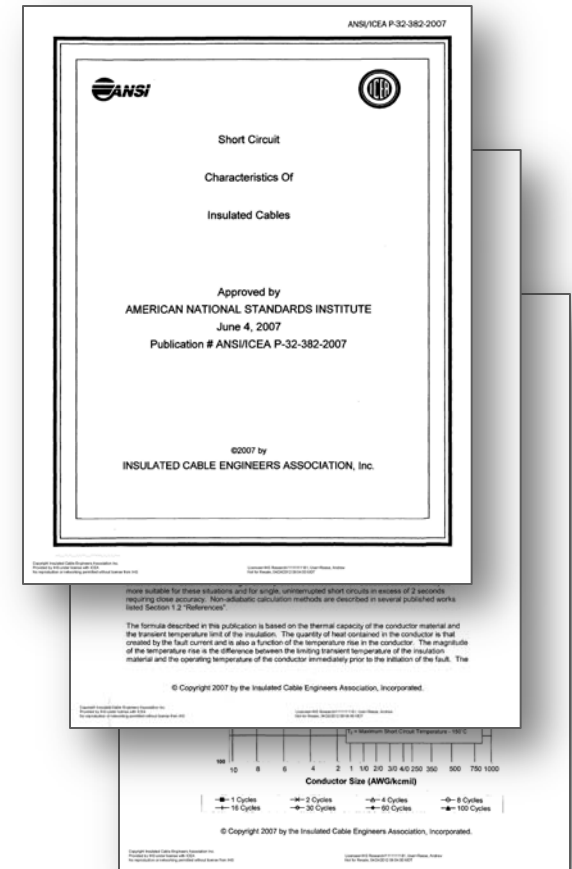

Getting the Most
Out of Your Subscription
To ICEA Standards

Your Subscription to ICEA Standards

Your IHS subscription is a license to access ICEA documents for a defined period

- When you subscribe to ICEA standards via IHS, you are purchasing a LICENSE to access the documents for the period of your subscription and under certain conditions.
 - Documents are leased via a subscription
 - The right to use the documents terminates at the end of the subscription
 - Documents are available through single-user access via Internet, Intranet, Extranet (“Network 1 User”), or on DVD

Deployment Options

Standards can be accessed in several ways: Internet, Intranet, Extranet & DVD

- **Internet**

- Standards are accessed through the Internet via a Web browser (e.g., Internet Explorer, Firefox, Chrome, Safari)

- **Intranet**

- Standards are accessed through the company's intranet, or internal network, which provides access only to company employees

- **Extranet**

- Standards are available to be accessed within the company's internal network and also from outside the intranet via a portal that allows for external access (e.g., by an outside contractor)

- **DVD**

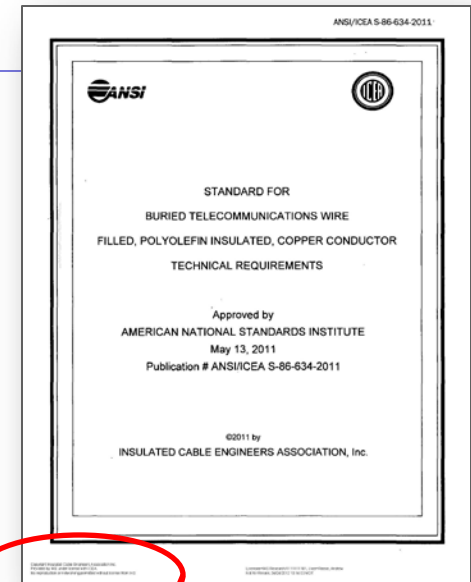

- Standards are accessed at a user's computers via a DVD inserted into that computer

Copyright Provisions

You may download a document for personal use

- Your subscription entitles you to cut and paste excerpts from the document, and to print a copy of the document.
- You may download a document for personal use and retain an archival copy for the period of your subscription.

Copyright Insulated Cable Engineers Association Inc.
Provided by IHS under license with ICEA
No reproduction or networking permitted without license from IHS

Additional Copyright Provisions

Certain documents may be retained when required by law

- After your subscription expires, you may not permanently retain copies in any file or on any hard drive, server or other formal means, or in any printed form filed to form part of any hard copy reference collection.
 - However, if you are required by law to keep certain documents, please contact your IHS sales representative for further details

Subscription Add-ons

Contact IHS to learn more about these related services

- **Multiple Sites / Users**
 - Add more sites and/or users to your subscription to ensure all relevant staff have access to the critical standards they need
- **Additional Standards Development Organizations (SDOs)**
 - Add standards from additional SDOs so that users can access all the standards content they need via a single, uniform interface
- **Reference Linking**
 - Link directly to PDF standards from your internal documents
- **Usage Reporting**
 - Client usage reports to assist in charge-backs to specific divisions or departments
- **Account Customization**
 - Allows Account Administrators to customize the user interface, i.e., incorporate messaging for internal communication and add their company's brand/logo

Benefits of a Subscription

A subscription to ICEA standards ensures essential access to critical standards

- Provides ability to deliver critical standards to the desktop of professionals, knowledge workers and engineers across the organization.
- Enterprise-wide, leased access to all end-users 24 hours a day / 7 days a week.
- Documents are immediately available at critical time of need during design phase or repair/maintenance.
- No unexpected costs associated with multiple users purchasing multiple copies of documents.
- No costs associated with maintaining/managing a central hardcopy.
- No hidden costs associated with issuing purchase orders or replenishing funds for purchasing individual documents.
- No end-user dissatisfaction waiting for delivery of documents at a critical time of need.
- No misplaced documents causing further production delays.
- Delivery is via one of the most sophisticated research tools available: IHS Standards Expert®.
